

*"I have been singing for as long as I can remember. I was always in chorus but never had vocal training. It wasn't until later in my life that I decided that I wanted to learn more about music and singing. I attended Onondaga Community College first where I began to study music and then I transferred to LeMoyne College. It was here that I met Joanna. She was going to my vocal teacher and I was nervous. What is wonderful about Joanna is that she didn't judge me. She didn't make me feel that I was too old to be doing this like some teachers in the past had. She encouraged me and was patient with me. During my time with her I went through some trying times and she was there with her understanding and her support. She taught me things about music that I was not taught before. She is an amazing teacher, one I would go back to if given the opportunity. Thank you Joanna for everything."*
